I Feel happy. because me and my kids have a place where to sleep.

One of the things of I like is that if we don't have food you guys always have something for us.

One of the things I don't like that we don't have a telephone and a kitchen where to cook the food we like.

Sometimes I don't like the attitude of some people.

Sometimes I feel depressed because are friends and family members can't visit us.

I would like to go in my room at 9:00 p.m. at least.

And I thank all of you guys for helping me with the stuff for me and my kids.

I thank all of you guys for letting me stay until I find a place. Thank you very much.
