Re: Letter of Appreciation

From: La Sandra Hamlin

In June of 2003 my house was burglarized; The robbers had turn not only my house upside down, but my entire life was a mess. When I found out that the robbers were my next door neighbors, it was really impossible for us to live there due to the anger I had. I choose to leave Los Angeles and start a new life for my daughter and me here in Riverside County. Things started out fine, found a job right away, I could not believe how easy the transition was.

Here we go again the store that had employed me had gone on strike we had to move; in my search for a less expensive place to stay I met this guy who had property and long story short he made my stay very uncomfortable. I had to get my child out of that environment, only to find my self homeless; after a few referrals, I was referred to The Concerned Family were I met the case manage and she gave me a place for me and my child to stay (God is Good).

With the peace of mind that came with our new found place of residence, I was able to talk to the case worker who referred me to ADV, Which is a place where I receive counseling for Anger Management with parenting and my daughter speaks to a counselor about anything she has a problem with.

With a better view and a new prospective about life, I found not one job but two. After some saving and a hole lot of prayer a found a house one that by the Grace of God I can afford and no Crazy landlord.

Long Story Short I write this letter to The Concerned Family Thanking you for all of you support through the hard times in my life and I truly pray that God continue to allow your program to make a difference in many others lives.

Thanks Again and My God Bless

*La Sandra Hamlin*
